Destination information

Almuñécar is located in the heart of Costa Tropical, which stands out because of its picturesque beaches of pristine waters, its coves and the beauty of the sea bottom. This town offers visitors a subtropical climate, where the average temperature is 20 °C and the sun shines about 320 days a year. These climate conditions are favourable for the growth of a large variety of tropical fruits like the avocado or the cherimoya.

Almuñécar offers tourists lots of leisure options, including all types of water sports, outdoor activities, culture and history. Places like the San Miguel Castle or the ruins of the Roman baths, the aqueduct or the fish-salting factory evidence the presence of Romans, Phoenicians, Muslims and Christians and the importance of their cultures in the town's history. Also worth visiting is the Cueva de Siete Palacios (archeological museum), the 'Peñon del Santo', the church (Iglesia de la Encarnación), the Bonsai Garden Museum, the 'Loro Sexi' Exotic Bird Park or the 'Majuelo' Botanical Garden and Park.
